My Short Story

Hello, thank you for your attention!

My name is Dmitriy, and I am a PHP/WordPress developer. I primarily specialize in backend development but also have solid experience working with the frontend part of websites.

I have around 5 years of commercial experience during which I have been involved in:

- 1.Developing and customizing WordPress websites using custom themes and popular plugins such as ACF, Contact Form 7, Polylang, and Elementor.
- 2.Creating tailored WooCommerce solutions for specific business needs.
- 3.Efficient bug fixing and functionality debugging.
- 4.Implementing animations and interactive elements using JavaScript to enhance visual appeal and user engagement.
- 5.Continuously updating my knowledge and staying current with the latest trends in web development.
- 6.Effective communication with clients and team members.
- 7.Improving website cybersecurity.

I offer services for both landing pages and multi-page websites.
